**Share adventure. Share fun. Share bikes.** Bikeshare has emerged as one of the most successful public transportation movements in North American Cities. In distributed bike sharing programs, bikes are available throughout the city for on-demand, local trips.

The Oregon Cascades West Council of Governments (OCWCOG) and the InterCommunity Health Network Coordinated Care Organization (INH-CCO), are launching a bikeshare program in the City of Corvallis. Called *Pedal Corvallis*, the program is targeted to help Medicaid members access medical appointments and personal trips; it also is open to all community members age 18 and older.
