MEMORANDUM

DATE: March 16, 2023
TO: OCWCOG Budget Committee
FROM: Marit Nelson, Finance Director
RE: **FY 2024 Budget Build**

In fiscal year 2021, the OCWCOG Finance Department and Budget Committee agreed that scheduling additional budget workshop sessions would be important to further the understanding and transparency of the processes used to build the annual budget. To that end, we scheduled Budget Committee meetings last year in March, April and May to discuss those processes and accept feedback from our members.

As a part of our continued effort to maintain open communication and transparency, the following is a synopsis of the steps we have already begun to take this fiscal year and will continue for the next few months until the proposed budget is completed for your review.

Financial statements are prepared each month and reviewed with department directors. Projections of revenue and expenses to the end of the fiscal year are also calculated and discussed. Things such as project timelines and funding availability factor into decision making throughout the fiscal year.

In January we begin to consider calculations for dues, potential carryover of revenue and project expenditures. This is followed by verification of current staffing, salary and benefit levels, and future personnel planning. Simultaneously, we review current leases and local economic trends to calculate internal service charges which lead to formulating total indirect costs. These values are incorporated into the overall budget for each program.

It is at this point full department budgets begin to take shape and we can finalize the document for Budget Committee consideration in May.

Factors being considered as a part of the FY 2024 budget build include:

- Dues calculation may vary from prior years as the Board will determine at the meeting later today. Current methodology results in 9.5% increase.
- COLA projection is assumed at 2.5% until contract negotiations are completed.
- Health insurance increase is assumed at the max 4% per OEBB.
- PERS rates are based on current projections from the State of Oregon. OCWCOG Tier1/T2 rate is 27.34%, OPSRP 22.14%, Employer Pick-up is 6% (Nine employees currently qualify for T1/T2)
- 198.85 FTE are currently proposed for FY 2024. As of February, OCWCOG employs 190.34 FTE. 4.5 FTE are vacant, 4 additional FTE in various departments are being considered for inclusion.

FY 2022-23 and FY 2023-24 Comparators:

FY 2022-23 Adopted Budget Total Revenue:		\$59,594,832
FY 2023-24 (Draft) Projected Revenue:		Not yet calculated
FY 2022-23 Adopted Budget Total Personnel:		\$21,188,032
Salaries		\$12,183,248
Benefits		\$ 9,004,784
Total FTE Budgeted:	201	
FY 2023-24 Projected Personnel Total:		\$21,826,458
Salaries		\$13,442,368
Benefits		\$ 8,384,090
Current Proposed FTE:	199	

We understand that there are other inflationary factors we must consider while drafting the FY 2023-24 budget. Costs associated with materials and services continue to fluctuate. Additionally, the normal cost increase factors for capital outlay projects will be assessed to reflect product availability and contractor scheduling.

Each Department Director will take a few minutes at today's meeting to discuss the factors they are taking into considering for the next fiscal year. These plans will be the starting point for our annual agency budget and coupled with the goals and objectives outlined in the strategic plan, provide the structure for the first draft.
