#### 5. Membership Dues

Finance Director Nelson presented the Membership Dues Update to the Board members as well as a summary of the member dues standard process which includes pulling data from PSU for population data for the full year.

Finance Director Nelson stated that in order to combat inflation this year, OCWCOG decided to propose a one-time change to the member dues percentage rate. Finance Director Nelson reminded the Board that in March 2023 the maximum cost for member dues was sent out to all the member jurisdictions.

Finance Director Nelson shared the proposed alternative with the board which is for this year doing a one-time adjustment by not doing any special dues. This maintains the integrity of the calculations, but withholds growing the special dues fund for the coming year for any special projects.

Councilor Olivares asked for clarification regarding what the special dues are. Finance Director Nelson answered they are for match and general administration purposes.

Executive Director Vogt said it is a rolling fund for the Board to conduct special projects that are needed. For instance, the strategic plan has an innovation element where the board has discussed possibly investing in legislative advocacy on behalf of rural committees.

Mayor Cross stated according to PSU numbers Toledo won't grow another person for the next 20 years.

Mayor Sawyer moved to approve the membership dues as presented with the one-time removal of special project dues with alternative solutions for this year. Treasurer Malone seconded the motion and it passed unanimously.

Treasurer Malone made a motion to approve and adopt the FY2022-2023 Annual Work Program and Budget Documents, Resolution 2022-05-01, and Agency Budget for FY2023-2025 for the fiscal year begging on July 1, 2023. Mayor Sawyer seconded the motion. The motion carried successfully.

#### 11. Strategic Planning

Executive Director Vogt shared an update on the Strategic Plan Milestones. OCWCOG has navigated through the first quarter of milestones which will be handed over to the Project Manager once one is hired. Currently Communications Officer Walker has been pursuing this task.

Executive Director Vogt stated most of the excitement happens during the planning stages of the strategic plan. Over the next couple of years OCWCOG is focusing on articulating milestones that are more realistic and on how to design the success. Milestones were identified and there were milestones that weren't met as well which means that some of the milestones were particularly challenging, and it allows OCWCOG to have a deeper understating about what the strategic plan is and does in order to ensure progress in the right direction.

Executive Director Vogt shared that there will be places where the mark will either be made or missed, but if the mark is missed it is a learning experience which allows the organization to grow. The strategic plan with its goals and milestones will be published for the public to have full transparency into.

Mayor Sawyer Stated if OCWCOG can't meet the milestones to reach out to the Board or member jurisdictions to see if they can help.

Treasurer Malone shared that he appreciates the dedication and direction of this strategic plan and the way the agency is growing.

Mayor Johnson asked about periodic windows of reviews, like if they are every four years? Executive Director Vogt answered that this is a three-year plan, but there is horizon planning done in yearly blocks.

### 13. Executive Director Update

Executive Director Vogt stated OCWCOG continues to recruit for key positions such as the CED Director with first round interviews hopefully being scheduled in late May to early June.

Executive Director Vogt reported that many of the grants that OCWCOG pursues ask a number of demographic questions and increasingly the grants ask about demographics of the Board itself. Executive Director Vogt said there will be a voluntary survey for self-identification that will be confidential and used for grant information only.

Executive Director Vogt stated OCWCOG has had two in-person meeting locations, one in Toledo and the other in Albany. Since there haven't been any in-person Board members attending in Toledo, Executive Director Vogt asked the Board if they wish to continue to have Toledo as an option to attend in person or another idea is to alternate between the two locations and still allow hybrid attendance?

Mayor Cross and Councilor Booth liked the idea of rotating the meeting location.

Treasurer Malone stated if it isn't used, other options should be considered. Treasurer Malone said he is in favor of rotating meetings, however maybe not every meeting.

Chair Hall noted that other boards have been exclusively remote. However, the meetings are mostly all virtual and others will have in-person meetings with one in each of the three counties.

Vice Chair Sprenger said she was in favor of the rotating meetings with a hybrid format. Councilor Olivares agreed.

#### MEMORANDUM

**DATE:** July 20, 2023

**TO:** OCWCOG Finance Committee

FROM: Marit Nelson, Finance Director

RE: OCWCOG Financial Update

Please find our snapshot, and Consolidated Revenue and Expense Statement with FYE projections, based on draft financials for period ending May 31, 2023. The projections factor in all that we know currently and what we expect to become our final closing balances after year-end adjustments and accruals are completed. As we are currently learning a new finance system and continue to post year end transactions to the previous system, it is my expectation that it may take us a little longer to complete some of our processes. Regardless, the finance team is working as expeditiously as it can to close the year and move completely over to the new software.

Overall accrued income looks healthy as we are coming into the final quarterly billings and grant fund requests. In a preliminary review of deposits and AR invoices entered for June, we are currently trending to meet or exceed budget.

Personnel Expenses have been paid and initial accruals through June have been completed. Closing entries to capture corrections and pre-audit adjustments will be done in the next few weeks. The trend is closing in on 87% of budget. Fiscal Year 2024 is already off to a quick start with several new and vacant position listings to hopefully fill those slots as soon as possible.

The Materials and Supplies (minus Capital and Contingency) is 82% of budgeted for the year. We anticipate landing at 90% by the end of June.

In Capital Expense, we continue with payments for software implementations in Finance, Human Resources, and Ride Line. Capital costs for HVAC, back-up generator and depreciable property is planned in the next few months and will affect the FY 2024 budget. There are no red flags as we begin the process of closing out fiscal year 2023.

We expect to continue meeting our goals and making improvements to our internal processes and procedures over the coming months. We look forward to what the next fiscal year brings us.

Please let me know if you have any questions.

### In the Matter of the 33<sup>rd</sup> Anniversary of the Americans with Disabilities Act

#### A PROCLAMATION

**Whereas,** thirty three years ago, on July 26, 1990, President George H.W. Bush signed into law the Americans with Disabilities Act (ADA), establishing our nation's comprehensive mandate for the elimination of discrimination against individuals with disabilities; and

**Whereas,** the ADA is a civil rights law, impacting many facets of daily living, including employment, housing, public facilities and services, education, new construction and modifications, and telecommunications; and

**Whereas,** the ADA has expanded opportunities by reducing physical and other barriers, changing perceptions, and increasing full participation in community life; and

**Whereas,** Citizens of the Oregon Cascades West region and the nation will recognize that progress has been made by celebrating the 33<sup>rd</sup> anniversary of the signing of the ADA on July 26, 1990; and

**Whereas**, while we celebrate the 30th Anniversary of the ADA and the achievements which have been accomplished, we also recognize that the full promise of the ADA can only be reached if we remain committed to continue our efforts to achieve full implementation of the goals of the ADA including the provisions of accessible facilities and services;

**Now therefore,** Oregon Cascades West Council of Governments does hereby proclaim July 26, 2023 to be recognized as Americans with Disabilities Act Awareness Day, celebrating the 33<sup>rd</sup> Anniversary of the ADA, and reaffirming the principles of equality and inclusion for people with disabilities.

# **Executive Summary**

## **Background Information**

Oregon Cascades West Council of Governments (OCWCOG) requested HR Genuine LLC, HR Consulting Service, to conduct an independent total compensation market study of represented positions on behalf of OCWCOG. This study is intended to review and evaluate the market competitiveness of OCWCOG represented classifications with jobs of comparable character of work.

Using direct knowledge and field experience, Eugene Plukchi, Human Resources Consultant of HR Genuine LLC, researched, verified, and analyzed the market salary and benefits data, comparing fifty-two (52) OCWCOG's unique represented positions identified in Table 1 with comparable positions among entities specified in Table 2 of the report.

# **Key Findings**

# Base Pay and Total Compensation

- > HR Genuine LLC found that overall OCWCOG is **market competitive** throughout its minimum, midpoint, and maximum base pay (salary only)<sup>1</sup>:
  - o 96% (MIN)
  - o 97.7% (MID)
  - o 99.8 (MAX)
- ➤ HR Genuine LLC found that overall OCWCOG is **market competitive** when its total compensation (Base Pay + Insurance Cost + Retirement Contribution) is compared to the average minimum, midpoint, and maximum market compensation¹:
  - o 103.7% (TC MIN)
  - o 104.0% (TC MID)
  - o 105.0% (TC MAX)

Market competitiveness is determined by the following compensation evaluation standard, color-coded for consistency throughout the report data.

Within market average – Compensation figures between 95% and 105% of the market average

Below market average - Compensation figures below 95% of the market average

Above market average - Compensation figures above 105% of the market

<sup>&</sup>lt;sup>1</sup>See **Figure 1** on page 6.

# Methodology

## Phase 1 - Preparation and Development

Market salary and benefit data was collected and compiled by HR Genuine LLC by surveying designated comparator organizations. Throughout the phases of the salary survey, Eugene Plukchi, HR Consultant with HR Genuine LLC, collaborated with OCWCOG HR Manager, Ryan Schulze, and communicated with OCWCOG Human Resources team members to obtain necessary job, pay, and organizational data.

Information about OCWCOG positions was obtained from the current copies of job descriptions, as submitted by OCWCOG.

To ensure the descriptions for OCWCOG positions accurately represent their current duties and responsibilities, the following project steps were completed:

- Employees holding surveyed positions were given an opportunity to review the essential duties of their positions and note any changes through an online job questionnaire developed by HR Genuine LLC.
- HR Consultant incorporated their collective feedback into the online job surveys, which was provided by HR Genuine LLC to the OCWCOG managers supervising these positions.
- Managers were given an opportunity to review employee input and provide any additional feedback and make comments.

Prior to executing external market comparison, HR Genuine LLC updated the essential duties of the surveyed positions' descriptions to reflect any modifications resulting from the survey completion. Where necessary, HR Genuine LLC partnered with OCWCOG HR Manager to ensure the accuracy of the essential duties of the positions under this study.

# Phase 2 - Market Analysis

HR GENUINE, LLC collected and studied the job descriptions from each of the comparator organizations in the market to ensure proper job matches were made. The essential functions, the scope and type of work, and the minimum qualification requirements were considered in determining a match. Whenever job duties and minimum qualification requirements were not substantially comparable, the differences in duties and qualifications were taken into account.

Some comparator organizations did not maintain the same list of comparable positions due to the variations in the types of services they provide, the difference in the organizational structure, and the methods of workload distribution. Therefore, an attempt was made to identify other similar positions within those organizations that perform work of comparable character and have compensable factors like the positions under this study. Consideration was given to the positions' essential functions and to their relationship with those of higher or lesser scope of responsibility within the organization. This data was reviewed thoroughly to ensure an appropriate match.

Research was conducted to find at least three (3) strong job matches to provide an adequate average market for use in salary considerations. Some surveyed positions had fewer job matches. When an insufficient number of job matches were found within the comparator agencies, other classifications within the organization with similar job responsibility, complexity, and education/experience requirements were considered.

HR Genuine LLC analyzed and identified positions among the surveyed entities that have both comparable duties and comparable minimum qualifications requirements. Salary and benefits data for all identified positions was compiled to illustrate how OCWCOG positions compare with the market data.

# **Salary Analysis Terms and Definitions**

The **base pay data** used in the compensation survey represents monthly wages, exclusive of any shift differential, overtime, or other types of variable pay. Where pay data for comparator agencies was reported in a period other than monthly, an arithmetic formula was used to convert pay figures to match OCWCOG's pay period.

The **total compensation** data includes base pay salary + the total cost of employer-paid benefits + the total amount paid by employer to fund retirement benefits as a percentage value applied to base salary.

The **salary range data** provides base pay information and is illustrated by the actual minimum, (starting) pay (MIN), the rate of pay at mid-point of the salary range (MID,) and the maximum (MAX) monthly salary figure, inclusive of any longevity steps. The MIN, MID, and MAX figures represent actual steps of the salary range. Where the salary range data was illustrated only by the minimum and the maximum, the mid-point was calculated by taking the sum of the range's minimum and maximum, divided by two.

= (MIN+MAX)/2

To evaluate OCWCOG's compensation for market competitiveness, both the **average** and the **median** market rates were calculated. Mathematically, the average value describes the sum of numbers divided by the count of numbers. The median is the middle number of the data set when the data is arranged from the lowest to highest. The average value provides a more accurate sense of the total scope of pay data and considers all comparator salaries and their effect on OCWCOG's market competitiveness. The median value is a good indicator of the more realistic average salary when substantial difference in compensation between comparable positions exists. This is because the median is not changed as much by an unusually high or low number(s) in the market compensation data.

OCWCOG's **market position** (competitiveness) is shown by the percentage value OCWCOG occupies of the market average/median comparable data point. A number above 100% indicates OCWCOG's compensation is above the market average/median, and a number below 100% indicates OCWCOG's compensation is below the market average/median. This difference from 100% illustrates the range of adjustment that could be made either up or down the OCWCOG's salary range and other monetary contributions to match the market data. For each market position, except the cost of benefits, the following industry standards are used:

Within market average - Compensation figures between 95% and 105% of the market average

Below market average - Compensation figures below 95% of the market average

Above market average - Compensation figures above 105% of the market

Per OCWCOG's policy, adjustments may be made if the current total compensation is 5% or more below the average job market rate at midpoint.

# Market Match Findings

Market research revealed the greatest number of matches to be among administrative role positions, including IT. Positions such as Administrative Assistant, Accounting Specialist, Clerical Support Specialist, IT Specialist, Network & Security Engineer, GIS Analyst/Planner and others yielded between ten (10) and sixteen (16) matches. Professional roles and social service positions comprised the mid-section of the "pie" and had between four (4) and nine (9) matches.

Of the fifty-two (52) surveyed positions, twelve (12) positions yielded three (3) or less market matches. This can happen due to uniquely structured roles with responsibilities tied to specific funding, programs, or a project. In some instance local governments, along with OCWCOG, include in their geographical service area the counties governed by the entities included in the comparison, such as Linn, Benton, and Lincoln Counties. It is also common for other county and local governments to contract the provision of similar services such as nutrition services and non-emergent transportation services for older adults to various senior congregate and home delivered meals service centers, city transit service, and other non-profit organizations and local businesses. Removing these matches from the analysis, however, does not bear any notable impact on OCWCOG's overall market performance, with less than 1% difference at base pay and total compensation midpoint.

# Market Position - Health Insurance Benefits

#### **Health Benefits Findings**

Market research indicates that OCWCOG provides a generous and comprehensive benefits package for employees and their dependents. Employees have four (4) medical plans, four (4) dental plans, and three (3) vision coverage options to choose from. These plans are provided through Oregon Educators Benefits Board (OEBB) Moda Health and Kaiser Plans.

For OCWCOG, the most populous MODA 1 medical plan, together with MODA Vision Pearl Plan 1 and Delta Dental Premier Plan 1, was used. The total cost of OCWCOG's monthly premium for this plan combination is **\$2,576**. See **Appendix C** for detailed benefit premium costs for all entities. This study did not compare the value of benefits such as deductibles, co-pays, and maximum coverage amounts, only the costs of benefits.

# **Market Position - Retirement Benefits**

OCWCOG participates in PERS (Oregon Public Employees Retirement System) which is a defined benefit plan. As part of the Collective Bargaining Agreement, employees may elect to receive a one-time annual employer contribution of \$1,160 to a deferred compensation plan in lieu of receiving \$845 as cash payment. (Article 28 – Wages.)

Of the compared entities, 14 organizations participate in PERS and all but one make the required 6% employee contribution on behalf of the employee. Since each employer individual rate varies based on recommendations of PERS actuaries, only the required 6% of salary paid by employer was included in the total compensation formula. Each participating employer's member rate is provided for information only and may be used in calculating total cost of retirement benefits assumed by OCWCOG for other purposes not covered by this study.

As a summary, OCWCOG total retirement contribution is approximately 20% above the average rate of contribution for surveyed entities. Among entities participating in a non-PERS defined benefit plan, only one covered the employee portion of 4%.

### MEMORANDUM

**DATE:** July 20, 2023

**TO:** OCWCOG Board of Directors and Budget Committee

**FROM:** Finance Director, Marit Nelson

RE: Fiscal Year 2023-24 Supplemental Budget

In June, the Board of Directors gave Executive Director Vogt permission to move forward with the assistance of a small committee of Board members to begin negotiating the purchase of real property in Corvallis up to \$2.4 million. The property, located on NW 9<sup>th</sup> Street, has been toured by representatives from OCWCOG programs, technology services, administration, and CSC. It includes an office space as well as a residential rental home.

Over the course of the past five to six weeks, OCWCOG has made an offer and began the process of scheduling inspections, engaging a title company, and reviewing documents on the property provided by the seller. It is our expectation that minor maintenance will be required by the seller on the main office building. The residential rental will be vacant as of July 31, 2023.

Final closing is estimated to take place on or about August 25, 2023. In order to finalize the purchase and maintenance, and possible improvements (safety doors, etc.) expected for the property, the FY 2023-24 budget requires adjustment to appropriate funding to the Building Fund.

The following adjustments are recommended for your consideration:

Increase to Beginning Fund Balance and Rent Income of \$188,580.

 Projections to ending fund balance for FY 2023 were lower than currently trending for the fiscal year close. It is expected that accrued revenue and interfund transfers will exceed what was originally projected for beginning balances in FY 2024. It is also expected that CSC will rent several spaces at the Corvallis building. A midyear estimation for additional rent has been calculated.

Increase to Materials and Services of \$50,900.

 Increasing costs associated with building maintenance, insurance, janitorial and utilities has been factored in for the first year following purchase.

Increase to Capital Purchase and Building Improvements of \$2,301,250.

• Building purchase of \$2,250,000 and projected correlating expenses that could be required following purchase.

Decrease to Operating Contingency of \$50,000.

 Appropriate contingency funding to support the above-mentioned possible maintenance, repairs, and improvements necessary to occupy the proposed purchase.

### MEMORANDUM

**DATE:** July 20, 2023

TO: OCWCOG Board of Directors

FROM: Randi Moore; Senior, Disability, and Community Services Director

RE: Senior, Disability, and Community Services Updates

### **Senior and Disability Services Updates**

### **Case Management**

### OCWCOG to Begin Offering Additional Housing Support Services

OCWCOG Senior and Disability Services will have two dedicated employees to work with service eligible consumers across the region who need housing support services. The Housing Navigator and Housing Coordinator will provide intensive case management and develop individualized housing support plans to assist consumers with securing housing. These positions will also work to expand and enhance collaboration with community partners connected to housing support, and give additional support to consumers as they navigate community housing resources.

### **Linn County Coordination Group**

Senior and Disability Services has joined the Linn County Coordination (MAC) Group, which is a group of local community partners and representatives from the Governor's office. This group collaborates on efforts to obtain funding and works through projects related to the Governor's Executive Order on Homelessness (eo-2302).

### Lincoln County Case Managers Continue to Make Difference

In June, the Toledo office received notification that a senior with dementia was abandoned in the community and left with few supplies. The family member and caretaker indicated he could no longer manage the consumer's care needs, had left her alone, and he had relocated out of State. The OCWCOG Case Manager immediately coordinated with their supervisor and contacted local law enforcement. Unfortunately, law enforcement could not respond immediately, so the Case Manager completed an unannounced visit to the consumer's address to evaluate their condition. It was discovered that the consumer could not communicate when she last ate, where she could locate food or water for herself, if she had any medications, and how long she had been alone. The Case Manager contacted local emergency services and

remained with the consumer until EMTs could arrive to transport her to a local hospital for medical evaluation. Case Management is working with local medical professionals to set up ongoing services for this individual, locate a safe placement, and coordinated with Adult Protective Services.

### **Eligibility Unit**

### <u>Lincoln County Program Management Evaluation Audit Complete</u>

Lincoln County Eligibility Unit recently completed its Program Management Evaluation Audit, which is an audit that ensures local offices do not have any barriers or limitations in their processes that impact an individual's ability to apply for and receive SNAP benefits. The Lincoln County office scored high in almost every area with very minimal cited areas. The Auditors praised the participation of the team through the audit process and were impressed with the number of internal processes created to support Eligibility Services in their work to ensure that applications processes and procedures are current and accurate.

### Unwinding of the Public Health Emergency

The Eligibility Unit continues its eligibility renewal work connected to the unwinding of the Public Health Emergency. The Eligibility Unit continues to meet monthly with community partners at DHS to ensure the unwinding and renewal process is made seamless across the region for our community members. Below are the outlined dates for the entire renewal process.

### OCWCOG offers Behavioral Activation intervention to local Veterans

OCWCOG, together with the Older Adult Behavioral Health Initiative (OAHBI), is currently piloting a virtual six-week course with local veterans from Linn and Benton Counties. As an evidence-based depression treatment approach, Behavioral Activation has been found effective for the alleviation of overt depressive symptoms. In a clinical setting, Behavioral Activation is considered a 3rd wave treatment, utilized after medication and Cognitive Behavioral Therapy (CBT) have been attempted and failed to provide adequate support. The Tele-BA for homebound older adults is delivered via videoconferencing by both OCWCOG staff and OAHBI specialists in a virtual group setting to ensure professional, real-time sessions with group camaraderie, as well as individualized follow-up coaching. At the end of the final session, an estimated 80% of participants will report successful goal completion and improved mood. If successful, OCWCOG and OAHBI plan to expand the course to Lincoln County this fall.

### **Transportation**

### Corvallis Area Metropolitan Planning Organization (CAMPO)

- CAMPO applied for \$1.5 million in transportation improvement grants from the state's Carbon Reduction Program on behalf of its members something that members did not have the capacity to do. \$1.2 million will pay for a holistic planning study for the Corvallis to Albany Multiuse path, unlocking further funding by bringing the project to "shovel-ready" status. Additionally, CAMPO has applied for a specialized electric street sweeper for the remainder of the funding, which fills a key gap in the infrastructure maintenance plan of its members. Staff estimate that there is a high probability of success for these grants.
- CAMPO has performed its duties as a Metropolitan Planning Organization by publishing
  its triannual Transportation Improvement Program (TIP). The plan coordinates
  transportation spending between members, state transportation managers, and federal
  funders.

### Albany Area Metropolitan Planning Organization (AAMPO)

- The Childcare Working Group continues to meet monthly, keeping organizations focused on economic development and workforce informed about potential grants and other issues that may affect childcare in our region.
- We have wrapped up our Rural Capacity Funding work from Business Oregon and have three more months to continue rural work on the Ford Family Foundation grant. This work includes staying in touch with 27 rural communities through bi-monthly newsletters, prospecting for grants, and attending Regional Solutions Team (RST) meetings. The last RST meeting was held in Harrisburg with their city administrator and other planners. We are scheduling three more in person meetings in the next few months to hear the challenges these cities encounter and to offer solutions.
- Facilitated an EDA Broadband conversation in Lincoln County with city managers, the county administrator, the Tribe, Sequoia, and Solarity to create a common understanding of where the project is in relation to address mapping and next steps.

### **Enterprise Software Projects**

Oracle NetSuite went live earlier this month. It is a soft transition over several weeks with most of the work landing on the finance team. The Ceridian Dayforce implementation is still on track with an October 1 go live. We have identified some challenges in the payroll module that require workarounds to accommodate our processes but it's not a blocking issue at this point. More investigation should clarify if this will become a problem. CSC has decided to delay the Dayforce go live until January.

### CSC IT Support

I am filling in as IT Director for CSC. We have been able to work through several projects thus far. For June the team has upgraded the Food Share Warehouse Internet connection, installed Intune for network device management, implemented an onboarding process for new hires, cleared out storage of old computers, and created an asset tracking system for computers. There are several network and software projects that we will be working on this year with a focus toward partnering across the two agencies.
